

Dolphin social network

Dolphin social network: an undirected social network of frequent associations between 62 dolphins in a community living off Doubtful Sound, New Zealand. Please cite D. Lusseau, C. Schneider, O. J. Boisseau, P. Haase, E. Slooten, and S. M. Dawson, *Behavioral Ecology and Sociobiology* 54, 396-405 (2003). Thanks to David Lusseau for permission to post these data on this web site. <http://www-personal.umich.edu/~mejn/netdata/>
